

6th Grade Imperial Knight

This year at Silver Crest, students will have the opportunity to earn an extra award. Students who choose to participate in this honorary award may choose 10 of the 15 options below to work on during the year. These items are meant to provide a challenge for students who wish to extend their learning. Each student will have a recording sheet at school to help keep track of the requirements they have completed throughout the year. A few of these will need to be kept track of at home, signed off by a parent/guardian, leader, or coach, and then returned to school when they are complete. More information can be found on our 6th grade website.
