- The funding for the art teacher is now going to come from the Beverly Taylor Sorenson grant. This will free up money that we had budgeted for Art from the Land Trust money to be used for other purposes.

3. Leveled Learning – Kasey Newton

- Kasey asked: When we go to a traditional schedule next year should we consider going to leveled learning, where students with similar skill levels are grouped together so they can learn at similar paces? Amanda responded that Silver Crest is currently providing interventions for students who are in need of special help while others are involved in separate activities. Teachers in each grade level meet together to structure their interventions and groupings based upon their specific needs.

4. Library Appeal to District – Jaimi Brewer

- Jaimi asked: Should we ask the district to change the policy that forces teachers to stay in the library or not? We decided that Jaimi will call the District and get some additional information on the policy before we decide to appeal.
