

SILVER CREST NEWS

April 2024

A note from the principal:

Here comes Spring! Here in Utah that means sunshine, rain, clouds, wind and occasional snow. Sometimes all in the same day.

This is prime time for our teachers and students to work super hard to make sure that everyone has learned what they need to in their current grade. They are making amazing progress.

The beginning on May all students will take the Acadience Reading test which helps us see their progress. Students in grades 3-6 will take RISE mid-May which is a summary of what they've learned in Math, Language and Science. Mrs. Pessetto

Upcoming events:

- 4/12 No school for students
- 5/28 Egg Drop
- 5/29 Field Day
- 5/31 Last Day (no kindergarten)

Panorama Survey

Three times a year students in grades 3-6 are asked to complete a short survey to help us understand how students feel they are doing. The survey asks questions about how hard they feel they are working, if they are able to request help when needed, if they feel like they belong here at school, and other items related to how they feel they are doing in school. The next chance to take this survey begins soon.
